

North American Hunter Magazine & North American Hunting Club
presents...

Printable Shooting Targets

by MacStudio

The 24 targets included in this package are free exclusively for North American Hunting Club members only and were selected specifically for hunters.

You'll find sighting-in targets and shotgun patterning targets to get your gun choked for turkey, targets for rifle, pistol, muzzleloader, archery, plus much more.

All targets are created at actual size, then reduced to fit an 8-1/2" X 11" page. Included on each target is MacStudio's exclusive 'scale indicator' to aid in scaling the target to its original size.

Printable Shooting Targets are created in PostScript® so they may be scaled to any size without losing resolution or clarity.

MacStudio will gladly create any target design requested by our registered customers. What's your favorite target design? Let us know and we'll add it to the current volume under development.

Comments, questions or suggestions for improvement are encouraged.
Visit www.macstudio.com online now...

Printable Shooting Targets requires Adobe Reader 4.0 or higher to view/print.

NOTE: The targets included in this package are not official targets recognized by the NRA or any other shooting organization. They are merely top quality targets covering a wide range of shooting flavors great for training or competition between friends, etc. Think safety and shoot safely. May your aim be straight and true...
